LIBRARY FUNDS

(Deposited in Savings Bank of Walpole)

	Amount	Income
Carpenter, Fanny, fund,	\$500 00	\$20 20
Stearns, Josiah W., fund,	3,500 00	141 40
Peck, Thomas B., fund,	1,000 00	40 40
Davis, Caroline L., fund,	500 00	20 20
Caldwell, Martha A., fund,	1,000 00	42 50
(Third Liberty 4¼% bond)		
Hooper, Warren L., fund,	500 00	6 67
<hr/>		<hr/>
Total income from library funds,		\$271 37

The income derived from the Stearns fund is paid into the town treasury, as by the terms of the will the town is required to pay the sum of one hundred and fifty dollars (\$150) a year to Emma Stauffer during her natural life, and at her decease the entire income becomes available for library purposes. All other income on library funds is paid directly to the Library Committee.

Respectfully submitted,

FRED O. SMALLEY,

(Term expires 1921)

WARREN W. KNOWLTON,

(Term expires 1922)

CHARLES H. BARNES,

(Term expires 1923)

We have examined the securities held by the Trustees of the Trust funds of the Town of Walpole, and find them to agree with the foregoing statement.

F. D. RODENBUSH,

I hereby certify that I have examined the foregoing account of the Walpole Cemetery Committee and find the same correct.

F. D. RODENBUSH,

Auditor.

Walpole, Feb. 15, 1921.

REPORT OF COMMITTEE ON TOWN LIBRARY

During the past year the committee has only been able to report 94 new books added to the library, including both those by gift and by purchase. Of course this seems remarkably small compared with 1919, when 109 were added and 1918 when the total was increased by 175.

This has been partially due to the fact that we have had less volumes given but especially to the increased cost of books themselves, which have advanced in price at least 33 1-3% in the last year. At present there are on the shelves 11,707 volumes.

The reading room continues to be well patronized and at present there are to be found 17 different magazines regularly on the tables.

The committee feels that something should be done to prevent the parking of cars on the grass plot in front of the library building, thereby killing the grass and making the surroundings unsightly and would recommend a small special appropriation for installing a cement curbing.

Owing to the increased cost of books and magazines the committee would respectfully recommend the appropriation of \$600, the same as before the war.

TREASURER'S REPORT

Auditors.

Walpole, N. H., Feb. 17, 1921.

REPORT OF SCHOOL BOARD

The school board submit the following report and at this time wish to thank the voters for their liberal appropriations, which were given at a time when the cost was greater than ever before. We also wish to thank the selectmen for their promptness in turning over the money to the district, which made it possible to pay bills promptly and to take advantage of discounts. On account of the uncertainty of the amount of state aid that we will receive, it will be impossible to state at this time the exact financial condition of the district.

The sum that the state approved was \$8,672.03, the amount which is now available is \$4,625.05, leaving \$4,046.98 that we will receive if the deficiency appropriation bill, which is now before the legislature passes. If the district receives the amount approved we expect that there will be funds enough to complete the year. Owing to this fact it seems best to hold the annual school meeting at a later date than usual.

Statement of revenue and expenditures from Sept. 1, 1919, to Sept. 1, 1920, and a budget for the school year from Sept. 1, 1921, to Sept. 1, 1922.

**Itemized report for the school year from Sept. 1, 1919, to
Sept. 1, 1920**

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Walpole:

I herewith submit by first annual report as superintendent of schools.

As might be expected a great deal of my time has been taken up in getting a thorough knowledge of the conditions as they exist in the various schools. The schools were found in a prosperous and progressive state, with as good a teaching force as can be found anywhere in a town of the same or larger resources.

It has not been thought best to offer any radical changes in subject matter or in methods of pedagogy. The policy has been to concentrate on that which we have and to carry out some plans already begun, rather than to destroy and rebuild for the sake of making an outward show of activity. Advice has been given to teachers where it was thought possible to change the method and at the same time carry over the enthusiasm of the teacher. The best results are obtained when encouragement is coupled with constructive criticisms.

THE HIGH SCHOOL

In another place you will find a report of Headmaster Albert on the conditions in the high school. While that report is addressed to me it contains valuable information for the parents of children and others interested in the institution. It will suffice for me to say that its curricula are suited to the needs of the community, its teachers earnestly devoted to their work, and its pupils being fitted for larger and more useful endeavors in life. The record of graduates who have entered college is on a par with those of larger schools. The record of girls attending normal school is all that could be demanded.

The work of the first year of high school is being done in a commendable manner in No. Walpole. The record of those who entered Bellows Falls High school last fall is as good as could be expected since the work had been in progress there

for so short a time. The class this year should do better. Not all the blame for failures in the class of last year can be attributed to the training received. The least number of failures was in those subjects which continue up through the grades until the senior year of high school. The teaching force of the Junior High is adequate and well fitted for the work.

ELEMENTARY

The work of the elementary schools is being carried on in accordance with the state program of studies. Much emphasis has been put on oral and silent reading if it was not already being done. Silent reading tests have been given in order to measure the attainment of classes. It is hoped that the pupils will, by practice in silent reading, learn "thought getting" and not "lesson-learning." It is worse than useless for a pupil to stand up and pronounce words fluently and still not be able to interpret the thought of the printed page.

The results in arithmetic, geography, spelling and writing are being tested also with standard tests. In this way we are able to apply drill and extra work where it is needed most.

One of the greatest things that the people of any community can have is faith in their schools. We are often too prone to value too highly that which is being done elsewhere. It seems natural to think that something over yonder is better than our own. Experience teaches that most people who feel that way are doomed to disappointment. If parents and others interested will visit the schools often and give the pupils questions (not catch questions) they must surely be convinced of the soundness of the whole situation. The faith of the parents in the work of the schools is soon transmitted to the children with the result that the latter go to school with confidence in their teachers, confidence in the system, and we have a brightened interest with a much higher grade of scholarship. A lack of faith is most disastrous. The children catch it and soon it is felt in the childrens' attitude. This makes "up-hill"

work for all concerned, a situation which the best of teachers cannot overcome.

The training, experience and decorum of your present teaching force is such as to demand the respect and good faith of all good citizens. On the other hand the treatment of the teachers by the community is all that one could desire. It is evident that the people of Walpole are interested in the welfare and education of their children, judging from the amount of money voted for school purposes. Your School Board is thoughtful in the matter of expenditures but it is guarding against foolish economy. It is my purpose to follow their policy in this regard.

I hope to have the work in home gardens continued this summer and I ask for the cooperation of all parents in this. There is a benefit beyond the mere amount of vegetables raised that is incalculable.

RECOMMENDATIONS

There will probably be no general increase in expenses this year either for teachers' salaries or for scholars' supplies. Neither can drop any perceptible amount for the demand is steady for both. A few worthy cases need salary adjustment. There is not adequate room for the efficient and harmonious development of the high school recitation schedule. Before long some remedy will have to be found if pupils come in from out of town to any extent to attend our high school.

In closing allow me to say that while there is every opportunity to say words of commendation for the various phases of the schools and their work, I am aware that everything is not done that should be and that there are things which it is hoped can be improved. I wish to thank the citizens of the whole town for their frankness and fair dealing, the teachers

and pupils for their loyalty, and the members of the School Board for their splendid cooperation and attitude of fairness.

Respectfully submitted,

WILLIAM J. ENGLISH,

Superintendent.

REPORT OF HEADMASTER

My dear Superintendent:

I herewith submit by first annual report as Headmaster of Walpole High School. The following facts may be of interest:

ENROLLMENT AND REGISTRATION OF CLASSES

Total enrollment,				96
	Boys	Girls	Total	
Senior class,	5	7	12	
Junior class,	5	5	10	
Sophomore class,	7	5	12	
Freshman class,	8	11	19	
8th Grade,	10	8	18	
7th Grade,	10	15	25	
Number of boys in the high school,				45
Number of girls in the high school,				51

Of this number 14 are tuition pupils.

COURSES OF STUDY

We offer three courses of study—agricultural, domestic arts and academic—in the high school, arranged to meet the demands of the community and to prepare those who wish to take advanced work in colleges and scientific schools, as well as to fit all for greater usefulness in society. In the Junior High

all are required to take the same subjects. Our courses have been approved by the State Board of Education.

At present our graduates who receive 85% in their subjects, are entitled to enter all schools on the New England College Entrance Certificates Board, on a certificate signed by the Headmaster.

Though we have one man teaching both agriculture and manual training in place of two, the work has in no way been impaired, for we lessened the amount of manual training. It is not essential to teach cabinet making in the high school. All wood and iron work, however, required in the agricultural course is given. In the Junior High it is continued. This course is of a commendable grade and has been commented upon favorably by the State Supervisor of Agriculture.

The Domestic Science course is especially adapted for those girls who wish to get a good practical training in household affairs and for those who wish to prepare to enter higher institutions and train for teachers of Home Economics.

This past winter term the girls in this department under the supervision of the Domestic Science teacher, have prepared hot cocoa and bouillon for all pupils who carry their lunches, in both the high school and the lower grades. The expense of this has been carried on by contributions from the children and others.

The Academic Course is for students desiring to enter college. The change we made this year in choosing a teacher who could teach the academic subjects and thus give more time to the Headmaster for supervision has proven valuable. More individual attention is given to the pupils and a higher grade of work can be expected.

STUDY AND PREPARATION

Due to our two session day, consisting of eight periods, much preparation can be done in school, but not all. As the average pupil recites four or five times a day, he has only three or four periods free for study. That, however, is not enough. To meet the standards he must do outside study. I feel that each teacher can reasonably expect, on the average, one hour of preparation for the lesson. Parents ought to see to it that faithful and conscientious work is done at home and thus co-operate with us.

Ten days before term marks come out notices are sent to the parents and guardians of those students who are in danger of not passing. This, of course, does not mean that the pupil has failed but that unless his work improves he will not pass. If parents and guardians will respond promptly on receipt of those notices a great deal more can be done for the welfare of those concerned.

ABSENCES, EXCUSES AND TARDINESSES

It is obvious that absence from a recitation will lower a pupil's standing, unless due to some cause which seems reasonable. When one is absent for a good reason, we are willing to give him the opportunity to make up lost work, but, it should be limited to those that have good reasons.

Tardiness is inexcusable except under unusual circumstances. Confronted with the problem of transportation, exceptions must be made. Those that live within a reasonable distance are expected to be on time and must be if we hope to keep the school on the approved list.

Parents and guardians, it is hoped, knowing that absences, excuses and tardinesses injure the pupil, will do all

that they can to help minimize them and thus give us an opportunity to raise our percentage of attendance. The State Department of Education will not give a school full approval if it has a low percentage of attendance. Good attendance means a good school.

Last June there were eleven graduated from the Walpole High School. Of this number four went to college, two to business schools, two to normal school and two took the short course at the Keene Normal and are now teaching. This is certainly a record of which we can well be proud.

I wish to take this opportunity to thank the citizens, parents, guardians, teachers and pupils, as well as the Superintendent and the School Board for their hearty support and earnest endeavors to co-operate with me in doing all that they could do for the welfare of the school. With such united effort we can make our schools equal to the best.

Respectfully submitted,

HARRY ALBERT,

Headmaster.

VITAL STATISTICS

To the Selectmen :

In compliance with an act of the legislature, passed June session, 1887, amended by the legislature of 1889, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the Annual Report," I hereby submit the following :

BIRTHS REGISTERED IN THE TOWN OF WALPOLE, N. H., FOR THE YEAR ENDING DECEMBER 31, 1920.

Date of Birth.	Name of Child (if any).	Sex and Condition.		Name of Father.	Maiden Name of Mother.	Occupation of Father.	Birthplace of Father.	Birthplace of Mother.	Age of Father.	Age of Mother.
